

Clutch Reveals List of the Most Highly Recommended Companies in Latin America

CIENCE Technologies awarded a spot as a Clutch Leader – a list of the leading B2B service providers in Latin America for 2020.

SAN DIEGO, CA, UNITED STATES, September 17, 2020 /EINPresswire.com/ -- The B2B ratings and reviews platform [Clutch](#) named [CIENCE](#) a Clutch Leader on their annual list of the most highly recommended companies in Latin America for 2020.

"We're humbled to be recognized as one of the Best Business Services by Clutch -- as this is really the loud voice of our clients speaking and the tremendous people who have made our Guadalajara office integral to delivering strong results for our customers," said John Girard, Chief Executive Officer of CIENCE. "We put our customers first, and this recognition is evidence of our focus on SLAs and operations management across our seven global offices."

The Clutch research team selected these companies based on their ability to deliver high-quality work for their clients. Each company is grouped into one of four categories based on their specific services and then organized by their Clutch rank. CIENCE, a global leader among B2B lead generation companies, is listed in the top-three in the category [Leading Business Services Firms in Latin America](#).

"These companies stand out because of the positive feedback their clients shared with the Clutch team. The quality of their verified reviews shows that these companies know how to deliver exceptional work to their clients," said Clutch Founder Mike Beares. "As more companies highlight their leadership in the industry and build their online reputation through third-party reviews, I hope the process of finding the right service provider becomes easier for business decision-makers."

The recognition from CIENCE customers verified by Clutch comes amidst a period of sustained growth for the company. In August, Inc. magazine's Inc 5,000 honored CIENCE as one of the fastest-growing privately-held companies for the second consecutive year (#793 in 2020).

"Just over a year after our expansion into Mexico with our Guadalajara office, it's gratifying to see the recognition bestowed by Clutch here on our position as a leader in Latin America," said Eric Quanstrom, CMO of CIENCE. "We've grown rapidly here, thanks to our client partners with whom we get to work on growing their business. It's a win-win!"
