What is Phoenix?

Phoenix is a membership platform that connects content creators with their fans. Phoenix empowers creators to develop a membership based business and generate additional income.

With Phoenix, fans can support their preferred creators via recurring payments of a stable coin - WEOSDT (EOSDT on WAX).

In return, content creators can provide access to exclusive content available only to their

subscribers. Creators can also give special rewards like rare NFTs or other exclusive rewards to their subscribers.

Is there a fee to use Phoenix?

Phoenix charges a 2% fee on the monthly income earned by creators on the platform. There are no other fees. On other platforms like Patreon, total fees can range from 8% to 10% or more.

How is it possible for Phoenix to give back so much to

creators compared to other platforms like Patreon?

Phoenix is powered by WAX Blockchain and LiquidApps DAPP Network Services. Fans make recurring payments in a stable coin - WEOSDT (EOSDT on WAX) and creators receive their income
