

JR-Tech Ranked #20 Among World's Most Elite 501 Managed Service Providers

JR-Tech has been named as one of the world's premier managed service providers, ranking #20 on the prestigious 2020 annual Channel Futures MSP 501 list.

LAKE ELSINORE, CA, US, September 18, 2020 /EINPresswire.com/ -- September 18, 2020: JR-Tech has been named as one of the world's premier managed service providers, ranking #20 on the prestigious 2020 annual Channel Futures MSP 501 list.

This is our third time being ranked in the MSP 501 and to have earned a spot in the top 20 among the most elite MSP's is a huge honor. We have a great team of people at JR-Tech and awesome clients!"

Jarom Renfeldt

For the 13th year running, MSPs from around the globe completed an exhaustive survey and application this spring to report product offerings, annual total and recurring revenues, profits, revenue mix, growth opportunities and company and customer demographic information. Applicants are ranked on a unique methodology that weights revenue figures according to long-term health and viability; commitment to recurring revenue; and

operational efficiency. Channel Futures is pleased to name JR-Tech to the 2020 MSP 501.

"While this is our third time being ranked in the MSP 501, we are pleased to have our hard work recognized by earning a spot in the top 20. To be included with the most elite MSP's is a huge honor." says Jarom Renfeldt, President of JR-Tech. "We have a great team of people at JR-Tech and awesome clients!"

In the 13 years since its inception, the MSP 501 has evolved from a competitive ranking list into a vibrant group of service providers, vendors, distributors, consultants and industry analysts working together to define the growing managed service opportunity.

"For the third year running, the applicant pool for the annual MSP 501 has grown year-over-year, making this year's list the most competitive in the survey's history," says Kris Blackmon, Senior Content Director at Channel Partners and Channel Futures. "The MSP 501 leveraged judgement methodology brand-new in 2020 to drill down into not just what makes a big managed service provider, but what makes a great managed service provider. The 2020 winners are truly the best examples of innovation, business acumen and strategic savvy on the planet. We extend our heartfelt congratulations to the 2020 winners and gratitude to the thousands of MSPs that have

contributed to the continuing growth and success of both the 501 and the thriving managed services sector.”

The data collected by the annual MSP 501 program drives Channel Partners’s and Channel Futures’s market intelligence insights, creating robust data sets and data-based trend reports that support our editorial coverage, event programming, community and networking strategies and educational offerings. It serves as a lynchpin to dozens of programs and initiatives. The complete [2020 MSP 501 list](#) is available at Channel Futures.

Background

The 2020 MSP 501 list is based on data collected by Channel Futures and its sister site, Channel Partners. Data was collected online from Mar. 1 through June 30, 2020. The MSP 501 list recognizes top managed service providers based on metrics including recurring revenue, profit margin and other factors.
