What it is: The Death Doula movement has been going on for the last decade or so and has gained enormous global traction in the last few years due to the organic need for greater support for those at the end of life as well as their families.

The Death Doula Global Summit hopes to achieve four main objectives:

1

Raise awareness of the worldwide Death Doula Movement so that patients and families can utilize doula-support.

2

Share the holistic scope of practice of the Death Doula Profession and share the benefits of this service at one of the most critical times in peoples' lives.

3

Help to reduce the fear of death

4

Document the Death Doula Movement in history.

The Death Doula Movement is also gaining great awareness for the beautiful, holistic support and guidance being given by Doulas which is helping to bring back death as something not to be feared, but rather one of our greatest teachers about life. Doulas are empowering families with the opportunity and support needed to care for those they love at this sacred last phase of life.

Death is our teacher. Death touches us all. Join us in this uplifting global movement that is helping to lift up our humanity on a worldwide level.

Raising global awareness, creating global unity and uplifting the global consciousness, we will talk with 18 speakers from 8 countries including Canada, UK, South Africa, Thailand, Brazil, Australia, Philippines, and the United States.

Raising the awareness that we are all connected in life and in death has become more important than ever. No matter what a person's religion, culture, or social economic status, with the right education, kindness, and support, death can be the sacred, natural experience it was meant to be.

Tickets are Free!
