

NephCare, LLC Reaches Agreement to Provide Chronic Care Management Services to Kidney Specialists of Minnesota

NASHVILLE, TN, U.S., September 22, 2020 /EINPresswire.com/ -- Nashville-based NephCare, LLC, a division of Nephrology Associates, recently reached an agreement with Kidney Specialists of Minnesota to provide Chronic Care Management (CCM) services to nearly 1,000 of its chronic kidney disease patients.

"We look forward to the future of coordinated patient care through this partnership," said Dr. Ashish Soni, Nephrology Associates President. "We're committed to this holistic model of ongoing care management for patients diagnosed with chronic kidney disease stage 3 or higher and have seen an improvement in the overall well-being for these patients since launching our CCM program in 2015."

The agreement will provide comprehensive CCM services, including medication management, immunization/allergy review, and psychosocial evaluation, for patients living with chronic kidney disease to achieve their highest level of independence and quality of life.

"Our decision to partner with NephCare, LLC to provide these comprehensive CCM services is critical to our unified goal of delivering the highest quality of individualized medical care for our patients," said Carrie El-Halawani, CEO of Kidney Specialists of Minnesota. "This is a pivotal moment for our practice in improving patient outcomes and providing the continuum of care needed in managing life with kidney disease."

Nephrology Associates, PC is a leading provider of renal care for all aspects of kidney disease and related conditions. Founded in 1985, Nephrology Associates is the largest nephrology practice in
