SEATTLE, WA, USA, September 23, 2020 /EINPresswire.com/ -- [ReelTime](#) CEO Barry Henthorn appears as a guest star on The [Bold](#) Today Show with patent attorney and host J.D Houvener whose law firm "Bold Patents" was responsible for the filing and ultimate issuance of ReelTimes Recent Patent issued as U.S. Patent Number 10,761,303 September 1, 2020.

The two celebrate and discuss ReelTimes Revolutionary Patent of the Simultaneous Spherical Panorama Image and Video Capturing System, Technology, some of the struggles and processes that they encountered along the way, and give general advice to those seeking to protect their intellectual properties. They also discuss how the invention came about, its commercial applications, and the path to enforcing existing infringements.

“

The tenacity and competence of the Bold Patents team are responsible for the quality and breadth of the patent issued by the USPTO.”

Barry Henthorn, CEO of ReelTime, stated: “It is always good to catch up with J.D. who is on the

cutting edge of IP protection. The tenacity and competence of the Bold Patents team are responsible for the quality and breadth of the patent issued by the USPTO. We look forward to continuing down this extremely exciting path together”

In the episode, J.D states “It took me a while to actually get that around my head, that one shot that captures everywhere... of the entire space around you” He later remarked that “There are a lot of ways to monetize a patent” and the two delve into some of the numerous paths as they relate to ReelTime.

Although the original technology allows any cell phone or other camera to instantaneously capture 360 X 360 Virtual Reality Video or pictures without any need for stitching, the patent provides protection from infringement from any capturing of a plurality of images utilizing at least one mirror. This spans a wide range of industries and uses.

The Simultaneous Spherical Panorama Image and Video Capturing System (code-named the “Periramascope”), is described in the pending patent application as a “360-degree image and capturing system having no lenses, a single lens, or a plurality of lenses. The device directs light from a sphere surrounding the device to a single reflected aggregate image that is then transformed into a full 360 X 360 spherical image or any subset thereof...”

Law: www.boldip.com - Our main focus is to help inventors and business owners secure top-quality patents on their inventions. The process of getting a patent from the United States Patent and Trademark Office (USPTO) is called 'patent prosecution', and that is our primary focus at Bold Patents. For many inventors and emerging businesses, protecting patents (as well as other areas of intellectual property) is a big deal and often causes a lot of stress and anxiety. Our goal at Bold Patents is to take the stress and worry off your shoulders and put it squarely on ours!
