

Sycamore Education Partners With Leading Payments Solutions Company Paya

Collaboration will integrate Paya's payments technology into Sycamore's management system used by schools across the U.S.

FREMONT, NEBRASKA, UNITED STATES,
September 24, 2020 /

EINPresswire.com/ -- [Sycamore Education](#), a leading education technology company that provides integrated features and tools to organize student data and streamline processes for schools, has partnered with [Paya](#), a leading provider of integrated payment and commerce solutions. Through the partnership, Paya's payments technology will facilitate digital payments from families for tuition and other services, as well as allow schools to process those payments in real time.

Paya's integrated payments technology will be incorporated directly into Sycamore's school management system, which is used in schools in 48 U.S. states. Through the collaboration, parents, students, and other parties will be able to make digital payments for a variety of functions, including tuition and meals. Additionally, this data will update and be processed in real time, allowing administrators to spend less time collecting and reconciling payments.

"Our partnership with Paya will significantly benefit our school customers and their families, making the payments process easier and more efficient for everyone," said Mark Dalluge, Sycamore Education's Director of Operations. "Paya's robust functionality means parents and families will be able to seamlessly make digital payments for tuition, meals, and more, while school administrators will be able to access and update this information in real time — all from right within the [Sycamore School](#) app once the full integration is complete."

"Traditionally underserved by the integrated payments industry, the education space has been a focus area for Paya's tailored payments solutions," said Mark Engels, Paya's Chief Revenue Officer. "Our collaboration with Sycamore Education will significantly enhance the payments process for its education partners by reducing administrative work and cutting down on costly errors, saving schools valuable time and money."

Sycamore Education is an industry leader focused on the development of innovative solutions to

deliver superior and cost-efficient school management tools and experiences for teachers, administrators, students, and parents.
