**OUTSTANDING FEATURES: WHY HYDRAGUN IS ONE OF THE BEST MASSAGE GUNS ON THE MARKET**

- It delivers effective and soothing percussive massage therapy, with high power and speed settings, such as a maximum RPM of 3,200 - the highest on the market

- It's quiet, with noise level ranging from 30 to 50 decibels - the device with the highest recorded noise on the market sounds off at 75 decibels (equivalent to the sound of a loud vacuum cleaner)
- It has long-lasting battery life that averages 3 hours at the top end of the market; by comparison, some devices offer just about an hour of battery life
- It's one of the lightest massage guns around, weighing a little over 1kg. A competitor's device could weigh as much as 40% more
- It's affordable and competitively priced at S\$399; other devices on the market could cost upwards of S\$800
- It's durable, made of high-quality aerospace-grade aluminium alloy; other devices are typically made of plastic
- It's versatile and comes with 6 different massage heads and 6 speed settings, the most among comparable devices

As the number of HYDRAGUN fans grows by the day, we invite you to test and review the HYDRAGUN for yourself and share your insights with your readers and followers. Please contact the HYDRAGUN team to request a review unit and to get publicity materials.
