TAIPEI, TAIWAN, September 25, 2020 /EINPresswire.com/ -- Elebike Co., Ltd. is the inventor of the [hub motor](#) in the [electric bicycle](#) industry with 160 invention patents globally, including Europe, United States, Japan, China, and Taiwan. With innovative research and development, the company designs and produces multiple types of hub motors that are applicable to agriculture [machinery](#), electric bikes, and snow removal machines. Elebike is showcasing their product, hub motors, at the upcoming Eurobike 2020 Messe Friedrichshafen event between Nov 24 - Nov 26.

The banner features the Elebike logo on the left, a stylized red gear icon with 'TAIWAN EXCELLENCE' on the right, and a large image of an 'Automatic Coil Winding Machine' in the center. The machine is a large industrial unit with a control panel and a large coil of copper wire. The text 'Automatic Coil Winding Machine' is written above the machine. The Elebike logo is also visible on the machine's front panel. The banner includes contact information: +886 2 2989 6229, info@elebike.com.tw, and elebike.com.tw, along with icons for WhatsApp, email, and a globe.

Elebike utilizes automatic winding hub motors during the manufacturing process to improve on the efficiency and longevity of every motor.. And with the amazing flexibility of customization, the company designs a great variety of motors such as a specialized three-wheel-bike single-motor specifically for the disabled or elders that is much steadier and special motors for family-oriented, easy-to-use snow removal machines to replace loud and bulky industrial ones. The recent trend of green energy will also be beneficial to Elebike in terms of renewable energy.

Top Competitive Advantages:

- Outstanding customization: voltage, wattage, size, and weight
- High quality maintenance and quality control

"Over the years, we have obtained over 160 invention patents all over the world and are recognized as the pioneer of the hub motor industry," said Peter Li, CEO of Elebike.
