

# GIS Software Market to Reach \$7.86 Billion by 2025

*Increasing adoption of GIS for facilities management, integration of GIS with mainstream technologies for business intelligence fueled the growth of the market*

PORTLAND, OREGON, UNITED STATES, September 28, 2020 /

EINPresswire.com/ -- According to the report, the global GIS software market was valued at \$3.24 billion in 2017 and is expected to hit \$7.86 billion in 2025, registering a CAGR of 11.8% from 2018 to 2025. Increase in adoption of GIS for facilities management, integration of GIS with mainstream technologies for business intelligence, rise in demand for GIS software for smart cities

development, and urban planning have fueled the growth of the global GIS software Market. On the other hand, high cost and availability of open-source GIS software have hampered the growth to some extent. Nevertheless, the adoption of advanced technologies such as AR, VR, and IoT for GIS, emerging technologies such as geospatial AI, and development of 4D GIS Software have created a number of opportunities in the market.

Asia-Pacific GIS software market is expected to grow at a highest CAGR in the near future due to development of smart cities projects."
