Cold Chain Logistics Market

Download Sample Report at <https://www.alliedmarketresearch.com/request-sample/1837>

The surge in refrigerated warehouses, growth of the processed food industry and pharmaceutical sector, and the adoption of automated software drive the growth of the cold chain logistics market. However, high operational costs and lack of standardization hinder the market growth. On the other hand, the implementation of RFID technologies creates new pathways in the industry. The global cold chain logistics market garnered \$159.98 billion in 2018 and is estimated to reach \$585.10 billion by 2026, growing at a CAGR of 17.9% from 2019 to 2026.

Meat fish & seafood segment to maintain its dominant position by 2026

Based on type, the meat fish & seafood segment accounted for more than one-third of the total market share in 2018 and is expected to maintain its dominant position during the forecast

period. This is due to the significant rise in consumption of meat, fish, and seafood every year. However, the dairy & frozen desserts segment would grow at the fastest CAGR of 20.7% from 2019 to 2026, owing to the rise in the retail industry and rapid surge in demand for frozen food.

Asia-Pacific to maintain its leadership position during the forecast period

Based on region, Asia-Pacific held the major market share in 2018, accounting for nearly two-fifths of the total share, and will maintain its leadership position during the forecast period. This is attributed to rising of the pharmaceutical sector in this region. However, LAMEA is estimated to register the fastest CAGR of 22.0% from 2019 to 2026, owing to the growth of the processed food industry in the region.
