Segmentation in the industry

The family office industry can be segmented into three major categories. The primary categories include Single Family Office (SFO), Multi Family Office (MFO), and the Virtual Family Office (VFO). Each of them has a specialty of their own and will be affected by the boom in several ways. Majorly the Single-Family Office will grow into Multi-Family Office and so on. The segmentation has been done carefully so that no major entity is left alone.

Services for the end-users

The services offered by the family office for the end-users include a myriad of things. The key aspects of the industry are broken down into principal components like financial planning, strategic planning to the private investors, governance, and advisory issues for private entities. The family offices provide a range of opportunities, and these are some of the key services provided by the offices to their clients.

Scope of the report

The following report has been compiled keeping the global audience in mind. The report covers all the crucial aspects. From major markets to in-depth analysis of the various aspects of a family office, every part of the report has something meaningful to offer. The complete report has been broken down into key geographical areas.

Along with that, special attention has been given to key locations and the emerging markets. India plays an emerging state too. With the major reforms taken by countries all over the world, the importance has been laid on how the money is exchanged all across the growth, key partnerships and latest decision-making process.
