

Tesla NanoCoatings Issued Two Malaysian Patents in 2020

The Company's Disruptive Technology Gaining Global Acceptance

MASSILLON, OHIO, US, September 29, 2020 /EINPresswire.com/ -- [Tesla NanoCoatings](#) Inc. announces the issuance of two new [patents](#) which relate to functionalizing and tuning

nanomaterials. The company has been awarded four new patents in 2020 adding to its long list of patented innovation. With a universal lead in the field on nanocoating technology, Tesla NanoCoatings remains committed to a strong research and development effort.

Our customers in the North America, Asia, Middle East, Africa and Europe are very supportive and are encouraged by our R&D programs”

Todd Hawkins, President and Founder

The company further strengthened its already impressive intellectual property portfolio with the addition of the patents. The company's disruptive carbon nanotechnology is radically changing the standard for protective coatings. These patents permit Tesla NanoCoatings to protect its

advanced carbon nanotechnology globally.

Tesla NanoCoatings Chief Nanoscientist and Inventor, Dr. Jorma Virtanen, stated, “These new patents will enable us to improve our coatings to deliver even greater life expectancy and more durability in a safer environment while delivering significant reduction to CAPEX and OPEX expenditures for our customers.”

“In spite of our universal lead in the field of nanocoatings, we remain committed to a strong research and development effort,” stated Todd [Hawkins](#), President and CEO.

Companies and organizations all over the world contact Tesla NanoCoatings to solve their most extreme corrosion problems. CEO Hawkins further added, “Our intellectual property portfolio allows us to make advancements in our coatings that address severe corrosion problems.”

“Our customers in the North America, Asia, Middle East, Africa and Europe are very supportive and are encouraged by our R&D programs,” said Hawkins.

1. UNABLE MATERIALS, Malaysia MY-173523-A, Granted 2020-01-31

2. UNCTIONALIZED GRAPHITIC MATERIALS, Malaysia MY-175860-A, Granted 2020-07-14

About Tesla NanoCoatings

Tesla NanoCoatings, Inc. (www.teslanano.com) is a technology company based in Massillon, Ohio. The company's product line is Teslan®, a highly effective corrosion control coatings for structural steel utilizing carbon nanotubes, which self-assemble into rope structures, making them highly conductive, tough and flexible.
