"In 2020 there will be fewer people diagnosed with mesothelioma-not because there are fewer people-but because the Coronavirus and mesothelioma have almost identical symptoms. There is a good chance that by the time a person with mesothelioma in Minnesota finally gets diagnosed-he was initially diagnosed

with the Coronavirus. Further, because of all of the chaos in Minneapolis a lot of people with mesothelioma or even lung cancer did not want to visit their doctor if they live in the MSP metro area.
