LOS ANGELES, CALIFORNIA, USA, October 5, 2020 /EINPresswire.com/ -- You've seen the pictures and read the stories about the types of private jets favored and owned by leading entertainers, sports stars, political candidates, and business moguls. But how much would it [cost](#) you to fly on the exact same type of private jet?

[Private Jet Card Comparisons](#), the buyer's guide that helps private aviation users figure out the right solutions for their needs, reveals the types of private jets used by high-profile Ultra High Net Worths (UHNWs) along with how you can fly on the same type of airplane and the cost.

"Many of the private jets you see famous people flying on are available in fractional ownership programs and jet cards, and those that aren't can be chartered on an hourly basis," said Doug Gollan, Founder and Editor of Private Jet Card Comparisons. "This is a fun look at not only the specific types of private aircraft they fly but how you can fly on that exact same type of private jet."

While the price of a customized Boeing 777 widebody used by pro golfers and an NHL hockey team is estimated at \$55,000 per hour, prices start at just \$4,000 per hour for small jets, meaning flying like your favorite movie star or mogul may not be out of your budget.
