Handle All Guns Like They Are Loaded at All Times

A knowledgeable and responsible individual will inspect and show a gun to be clear before further handling. He takes the time to personally inspect a firearm to ensure it's not loaded before moving on.

Keep Your Barrel Down

Situational awareness is critical to gun safety. Always consider your environment and determine your safe direction before making contact with a gun. You are to always keep your gun pointed

in a safe direction at all times whether you are loading, shooting, laying the gun down on the bench, showing clear, or transporting.

Keep Your Fingers Off the Trigger Until You Decide to Shoot

One vital skill for maintaining gun safety is the trigger finger discipline. Your safety finger is your trigger finger which must be kept straight and rest along the side of the frame of the firearm at all times until your sights are on your target and you have decided to shoot.

Keep Your Firearm Away from Unauthorized Persons at All Times

To ensure safety, store your guns in places that are inaccessible to unauthorized persons like children, guests, or criminals. You can purchase various Gun Storage Safes at Miller Guns and Ammo.
