PUNE, MAHARASTRA, INDIA, October 8, 2020 /EINPresswire.com/ -- Electric Blankets Market:

## Executive Summary

Global Electric Blankets Market is valued approximately at USD 0.81 billion in 2019 and is anticipated to grow with a healthy growth rate of more than 12.1% over the forecast period 2020-2027. Electric blankets are heating blankets with incorporated heating elements that help sustain a desired degree of temperature even in a cold environment. Electric blankets are used mainly to reduce the average cost of home heating. These are chosen for both residential and commercial ends. Their unique high durability, low cost, and long-lasting characteristics are factors that lead to a surge in demand. The affordability, comfort, and convenience offered, is one of the key drivers of the electric blanket industry. Electric blankets cost considerably less than heaters. They can be of great benefit in polar or temperate countries that suffer from long and cold winters. However, safety concern is expected to hinder the market growth. Apart from this, the key players of global Electric Blankets market have adopted various strategies to gain competitive advantage including product launch, mergers and acquisition, partnerships and agreements, investment, funding and others. For instance, in October 2019, Xiaomi launches the PMA smart Electric Blanket. A smart blanket which maintains temperature and is controlled by voice. Similarly, 2019, Bedsure launched new product-sherpa fleece low-voltage heated blanket.
