

VistaVu Solutions Ranks on Canadian Business' Growth 2020 List

Canadian Business unveils annual list of Canada's Fastest-Growing Companies

CALGARY, ALBERTA, CANADA, October 19, 2020 /EINPresswire.com/ -- [VistaVu Solutions](#), Inc., today announced that they have secured a spot on the 2020 Growth list, one of Canada's largest annual celebrations of the top 500 entrepreneurial achievements.

Previously known as the GROWTH 500, this award is celebrating its 32nd year of ranking Canadian companies on five-year revenue growth. Results of the annual ranking, with stories profiling the leaders who make the list, is published in a special report in Maclean's magazine.

“

We are very honored to be recognized as one of Canada's fastest growing companies.”

“We are very honored to be recognized as one of Canada's fastest growing companies.” says Jory Lamb CEO of VistaVu Solutions.” This award is about team success resultant

from our daily commitment to provide remarkable customer experiences. Thank you VistaVu'ers!”

This software solutions company has secured a spot on the 2020 Growth list due to their extensive work over the past five years developing and executing on company's strategy to diversify on Industry Solution and Business Services offerings. They currently offer mid-market cloud ERP solution SAP Business One, [SAP Business ByDesign](#), and [Dell Boomi](#) integration services, and our own field service management solution FieldVu. They have become one of the top SAP Business ByDesign implementation partners in North America, increasing their staffing by 142% and revenue by 178.8% over the last years.

In addition to diversifying their solution and business service offerings, strategic acquisitions have helped to grow the customer base. Over the years they have made three acquisitions in Houston, San Francisco and San Diego. These acquisitions resulted in, local presence, increased client base and references that helped to kickstart the rapid growth. However, not only did

VistaVu experience growth as a result of these acquisitions, but clients experienced growth with optimization and automation projects as a focus in this new strategic partnership.

While VistaVu continues on a growth path looking forward, the recent economic environment with COVID has impacted businesses globally, VistaVu included. The biggest challenge that they have faced over this period has been continuing to be a source of value for their customers who face major hardships. Many went into cash conversion and furloughed staff, resulting in projects being completely stalled. During this time, they pivoted to reduce expenditures in the company and started creating helpful resources for their clients to help get them through these difficult times. These resources included:

- Weekly Q&A Café product training webinars
- Helping find financial assistance
- Reorganizing and prioritizing projects and work

As VistaVu continues to evolve and grow, they hope to maintain a spot on the Growth list. Continuing into next year, they are focused on working on their customer experience programs, continuous improvement, and new technology solutions that advance customers' abilities.
