

Distribution 3-Ply Antibacterial Cloth Face Mask Cover for B2B International Supplier from Dony Garment Manufacturer

DONY launches Antibacterial Cloth Face Mask has C.E, FDA, TUV Reach certification - aims to expand its distribution to Europe, Australia, and the Americas.

HO CHI MINH, VIETNAM, October 12, 2020 /EINPresswire.com/ -- DONY Garment Company, a Vietnam based garment company, has announced its new [3 Ply Antibacterial Cloth Mask for COVID 19 protection](#) and is ready for worldwide distribution.

The CEO of DONY Garment Company, Henry Pham, said, "After the COVID-19 pandemic outbreak, Mr. Henry and his team have found that many international buyers are seeking new suppliers from countries outside China to purchase goods, including protective face mask and clothing. Therefore, as a garment company, we found a great opportunity to make cloth face masks as the word demand is increasing."

“

"The time is right for a better kind of face mask, and Viet Nam is the right country to provide it".

Mr. Henry Pham - CEO of Dony Garment Company

Asia market.

"We did a search on Alibaba for cloth masks for a non-china product and we were impressed

Dony Garment Company along with other Vietnamese enterprises donated medical supplies to the US

with the Dony Mask.

I like Dony because they communicate and deliver the product on time, the type of pandemic will not leave soon and people need to live with this situation.

Vietnam companies have great potential because of China and US relationships in trade and tariffs and not as stable. This is a good reason, traders will look for alternative skill labor force like in Vietnam.” - Al Evan – CEO - Security Pro USA

DONY Mask product is ideal and fashionable to wear during COVID 19 pandemic. The face mask has passed international standard certification, including FDA, ISO 9001:2005, C.E. Certificate, TUV Reach, DGA certification, and many more. It has 3 ply layers; each layer has different protection against dangerous pollutants as well as viral infection.

The first layer, or the outer layer, is made from water-resistant and strong nano fabric material. The middle layer or second layer is able to filter dust or dangerous pollutants. And the third layer, or the inner layer, has 99% antibacterial material as a protection from bacteria and viruses. In addition to virus protection.

Mr. Henry Pham, the DONY Garment Company CEO, explained, “All of Dony Mask products are sterilized by E.O. gas before reaching consumers, to ensure that the mask products are free from viruses and bacteria.” E.O. gas (Ethylene oxide gas) is used as a sterilant for medical equipment and supplies. It destroys bacteria & viruses.

DONY MASK - premium antibacterial cloth face mask (washable, reusable) with CE, FDA, TUV Reach, DGA Certification

Premium COVID Face Mask (Washable, Reusable)

"There are many masks manufacturers in Vietnam but not all the factories following the international standard. The reason why we chose a Dony mask is that they fulfill Japan's market needs and their manufacturing system is achieved by our standard target.

After we ordered 1st shipments for two customers in Japan, we are now preparing 2nd shipment in bigger quantities.

We will keep continue with the Dony Mask brand and already putting on our marketing resources into Japan market.

Our company is putting our priorities on Vietnamese factories for sourcing not only for the garment but the materials as well and believe it will be extended more and more in the future." - Nicolas Jo - Founder and CEO – JJFT, a fashion, and textile group
