

ByteScout Announces Availability of Automated PDF Form Filler in Its Cloud Platform PDF.co

ByteScout launched the automated PDF form filler that works with fillable PDF forms, scanned documents, and is connected to major online platforms.

WILMINGTON, UNITED STATES,

October 12, 2020 /EINPresswire.com/ -- Leading digital transformation solutions company ByteScout has released its automated PDF form filler service in its cloud platform PDF.co. With this latest offering, ByteScout further expands the capability of its PDF API, allowing for higher efficiency and more streamlined processes through filler automation.

PDF.CO PROVIDES ADDED SUPPORT FOR FILLING OUT FILLABLE PDF FORMS

ByteScout's cloud offering PDF.co has launched added support for built-in PDF filler automation. This pdf form filling automation can be used directly via API platform or via integrations like Zapier, Ui Path, Integromat, and many others.

With this added support, automated filling out of fillable PDF forms, or forms where you can type in information and select checkboxes, is made easier and more convenient. An example would be using [PDF.co PDF filler for IRS forms](#). With the automated PDF form filler, users can output with the name, checkboxes, and SSN boxes all filled out after a quick and easy set-up.

PDF.CO FORM FILLER CAN ALSO BE USED TO FILL OUT [SCANNED DOCUMENTS](#)

PDF.co form filler automation tool also works on scanned documents. This means that users can enjoy the benefits of forms filling automation on regular documents besides editable PDF forms.

Users can also use other features like PDF merging, PDF splitting, converting to and from PDF via API platform or plugins for external platforms.

PDF.CO CAN BE USED AS AN API PLATFORM OR VIA PLUGINS FOR 300+ PLATFORMS

Besides Zapier, PDF.co can also be integrated with a [wide range of online platforms](#), services, and applications. These include Zapier, Ui Path, Integromat, Dropbox, Google Drive, Google Forms, and hundreds of others.

With this platform-friendly form filler automation tool, users can enjoy the added convenience of having their forms filled out with ease, whether they come as editable PDF files or as scanned documents.
