

Triotos announces 6 new Industrial IoT (IIoT) solutions based on the Amazon Web Services IoTCore platform

The new Industrial IoT (IIoT) reference architecture is based on the Amazon Web Services IoTCore platform and associated AWS cloud services

PARSIPPANY, NEW JERSEY, USA,
October 15, 2020 /EINPresswire.com/ --
[Triotos](#), based in Parsippany, NJ today announced six IoT solutions using their Industrial IoT (IIoT) reference architecture based on the Amazon Web

Services IoTCore platform and associated AWS cloud and device applications and software.

Our solutions address embedded and integrated product and systems monitoring, monitoring of industrial sites, equipment, assets, machinery and asset tracking.

“

We are dramatically
reducing time to market and
costs by a factor of five”

Leo Lorenzetti, CEO Triotos

“With our reference architecture and suite of Triotos ready to deploy applications for IoT data/event monitoring, analytics and management, we are bringing a new approach to the market” says Leo Lorenzetti, CEO for Triotos. “We are dramatically reducing time to market and costs by a factor of five for companies to implement IIoT in

their businesses”.
