ITU Online Training, established in 2012, has recently announced a special on their cybersecurity courses package. Called the [Ultimate Cybersecurity Training Bundle](#), students gain access to 11 courses with over 170 hours of content that assists with CCSP Certification.

Originally priced \$1,089 for this certification training, ITU is providing this line of courses for just \$69 throughout October. This is to celebrate Cybersecurity Month and awareness of this prosperous career field.

To assist in getting people back into the work force, cybersecurity is consistently an area where ITU's courses are the most popular. [This bundle includes training for](#) CISA, CISM, CySA+, SY0-501, data security compliance, forensic investigation, the PenTest+ (PT0-001), ethical hacking, and more.

During such an unprecedented time in history and unemployment rates escalating, ITU has made it a mission to make sure their courses are affordable, now more than ever. There will also soon be various payment options available for students looking to invest in additional ITU learning subscriptions.

ITU Online is popular for their [Lifetime Access IT Training library](#). Students pay one price and have unlimited access to all past, present, and future courses. This prevents having to make continued investments in learning materials towards various certifications and provides multiple career advancement opportunities for these students.
