Description

Wiseguyreports.Com Adds "Yeasts, Yeast Extracts and Autolysates -Market Demand, Growth, Opportunities and Analysis Of Top Key Player Forecast To 2026" To Its Research Database

Global Yeast Extracts and Autolysates Market is accounted for \$3.51 billion in 2017 and is expected to reach \$8.94 billion by 2026 growing at a CAGR of 11.0% during the forecast period. Growth of the bakery industry, positive growth trend in alcoholic beverages consumption, demand for bioethanol as a fuel and increase in demand for specialty yeast products are the key driving factors for the market growth. However, stringent food safety regulations are some of the factors hindering the market growth.

Yeast is a single cell microscopic organism of fungus kingdom; it is found in abundance in nature and used extensively in making many food product and beverages. Yeast extract, a common name for processed yeast product is a thick brown sticky semi- solid food made by extracting the cell content while removing the cell wall. Due to its extreme flavor, it is majorly used as a flavoring agent or food additive by vegetarians and others for flavoring savory food, broadly found in a variety of packaged foods such as frozen meals, gravy, snack foods, crackers, stock, etc,. Similar to yeast extract, autolysate which is also known as autolysed yeast is an extract of yeast produced by self-digestion of yeast constituents by enzymes contained in yeast cells.
