

RegScan Launches New Spill Guide

RegScan's NEW Spill Guide gives you the resources your organization needs to handle spills whenever they occur.

WILLIAMSPORT, PA, UNITED STATES, October 16, 2020 /EINPresswire.com/ -- [RegScan](https://www.regscan.com/), Inc., a trusted provider of global compliance solutions

for Environmental, Health, & Safety professionals, is pleased to announce the addition of [Spill Guide](#) to their regulatory content offering. The creation of this new content within RegScan FLEX is based on overwhelming demand from RegScan clients.

RegScan's NEW Spill Guide gives you the resources your organization needs to handle spills whenever they occur. And what to do next. For each jurisdiction, Spill Guide gives you guidance for: substance spilled, reporting quantity, link(s) to relevant regulations, administrative agency, and more.

"Some of RegScan's biggest clients have been asking for spill guidance and we are excited to provide a solution to meet those needs," said Ned Ertel, President and CEO of RegScan, Inc. "Spills affect companies across industries and finding out reporting and clean-up requirements has been a major pain point."

RegScan's Spill Guide allows customers to filter by jurisdiction, substance spilled, and spill location, so customers can find the relevant content quickly and easily. Information in Spill Guide is easily exported in Excel format. Spill Guide is included in the RegScan FLEX platform and through many of its strategic partners. To learn more about RegScan's Spill Guide, visit: <https://www.regscan.com/spill-guide>
