

TriageNow Completes SOC2 Compliance With Help From RyanTech

TriageNow, a premiere telephonic nurse triage service, is proud to announce compliance with SOC2.

GILBERT, AZ, UNITED STATES, October 27, 2020 /EINPresswire.com/ -- SOC 2 is specifically designed for service providers storing customer data in the cloud. That means SOC 2 applies to nearly every SAAS company, as well as any company that uses the cloud to store its customers' information.

When Employee Care Really matters

As a precursor to the Workers' Compensation process, [TriageNow](#) is a time-of-injury solution that

Helping businesses stay safe from cybercrime is our core focus in everything we do."

*Ryan McMillen, Director of Business Development
RyanTech*

guides employees to the appropriate level of care. By doing so, companies large and small nationwide experience an average of 40% reduction in their work comp claims by using this triage service. Satisfying the requirements for SOC2 Compliance ensures client data is securely maintained.

"Throughout the Pandemic, TriageNow has been thriving because we had the tools in hand which gave the

management team the flexibility to pivot and still serve our customers with the same level of service and care." Craig Arnett, CTO TriageNow

"Helping businesses stay safe from cybercrime is our core focus in everything we do. Working with TriageNow to showcase security solutions based on the most secure Cloud solution from Microsoft was a great opportunity for our team to assist in implementing these policies and then following with a successful SOC2 Compliance audit." Ryan McMillen, Director of Business Development Ryan Tech Inc.
