HO CHI MINH CITY, VIETNAM, October 19, 2020 /EINPresswire.com/ -- The year 2020 has brought many new challenges and out of them, one is the Global COVID-19 outbreak. Amidst this coronavirus pandemic, many companies have introduced face masks to protect the lives of people.

Dony Mask meet all the rigorous requirements for global export and use.

The market has many different types of masks, including fashion masks, fabric masks (antibacterial, splash resistant, reusable) to regular disposable masks.. Each has its own benefits but there was no one which could provide all in one service.

“

We're proud to have supported many countries' healthcare systems with our high-quality protective face masks and medical clothing.”

*said Mr. Pham Quang Anh,  
CEO of DONY Garment  
Company*

“The time is right for a better kind of face mask, and Viet Nam is the right country to provide it.

In the past, the world turned to China when it needed massive quantities of consumer products,” notes Henry Pham - CEO Dony Garment. “The COVID-19 pandemic changed that a bit and the ongoing trade war between China and the US have inhibited Chinese production of PPE even more.

Other countries have been catching up to China's manufacturing capacity: we can now produce nearly a quarter-million DONY Masks a day when needed. We do it with a degree of precision

and quality control that larger Chinese manufacturers can't match, and with the same low overhead, government support, and access to global shipping channels that China is known for."

Face masks have become a mandatory part of people's lives and so the waste that comes with it. Considering these points seriously, a renowned company Dony Garment has [launched a new product Highly Innovative Protective Face Mask](#) in the EU market (Germany, Italy, Netherlands, Croatia, Lithuania, Spain, Poland, Belgium, Serbia, UK, Finland, Greece, Denmark) certified from CE, FDA, and TUV Reach.

In the European market, people have changed their habits of using disposable masks to protect themselves from coronavirus and other environmental pollutions. They are changing their minds towards opting for a nature-friendly face mask and Dony's professional protective face mask that best suits their needs.

What makes this branded mask unique is its multi-featured performance. This mask is anti-bacterial, water-resistant, easy to wear, comfortable, breathable, easily cleaned, reusable, and most importantly economical. Not every mask has all these qualities. Additionally, it is created by a protective civil fabric that could be easily cleaned and reused.

This premium 99.9% antibacterial, washable, and reusable mask is made from a three-ply, water-resistant cloth. Its outer layer resists water droplets clinging, the middle layer performs the filtration function and the inner layer gives protection from bacteria, dust, and germs. This unisex design makes it breathable, comfortable to wear for a long time, and healthy.
