

Watch Out Banksy - Will McNally - His Art Work is up 58.61% - The British Artist Taking The British Art Scene By Storm

Contemporary Artist Will McNally is the hottest new artist on the British art scene.

LONDON, UNITED KINGDOM, October 19, 2020 /EINPresswire.com/ -- Self-taught Will McNally is the hottest new artist on the scene. His beautifully crafted work mixes hyper-realistic drawings with bright neon colours and captures the humouristic essence of pop culture perfectly.

Born and raised in the UK, McNally also has deep Irish and Cypriot roots, the influences of which can be seen in his playful, thought-provoking artwork.

McNally's distinctive and eye-catching style has captured the hearts of many, as his pieces pay homage to and critique the aesthetic values of contemporary culture allowing them to sit exquisitely in any home, whether it be contemporary or classical.

Catching the attention of international galleries and avid art collectors both sides of the Atlantic, the value of his work has risen sharply by an impressive 58.61% in the last six months alone. And due to McNally's continued striking impact on the bustling New York art scene, this doesn't look like it will slow down any time soon.

McNally already has a twelve month waiting list for commissions and collectors include high-net-worth collectors, international galleries, professional footballers, music stars and noteworthy actors.
