

Tour+Med Encourages Travellers to Keep Up with the Evolution of the Pandemic Situation at Their Destination

Using Tour+Med's Destination Indicators Helps in Making Informed Decisions

TROIS-RIVIERES, QUEBEC, CANADA, October 21, 2020 /EINPresswire.com/ -- Since Tuesday, September 8, Tour+Med travel insurance has been covering the risk and expenses associated with a medical emergency related to COVID-19 with its "COVID-19 Rider".

Renowned with Canadian Snowbirds, Tour+Med, therefore, launched a reassuring and personalized solution for this niche market - a solution that is adapted to the current situation.

Given that the pandemic situation evolves differently for each country and for each American state,

Tour+Med shares [graphic and informative indicators](#) on its website, providing per destination information to travellers. These two indicators present a relative lecture of the actual number of new cases per destination, as well as a lecture of the tendency for that same location. The indicators also confirm if the "COVID-19 Rider" is available for that destination or not. Data is updated daily and Tour+Med encourages travellers to use its indicators during their decision-making process and at any time prior to their departure. For example, a person seeing that the current situation at their destination is rather high and that the tendency is severely increasing could decide to postpone their trip.

The "COVID-19 Rider's" underlying protection provides Tour+Med's \$5,000,000 coverage in case of a medical emergency, including in the event of infection to COVID-19. To this are added a number of adapted benefits in the event the insured person is required to quarantine at destination following a positive diagnosis but for which they don't need to be hospitalized; such as receiving \$100 per day of quarantine, the refund of delivered perishable goods, the refund of

The graphic features the Tour+Med logo at the top. Below it, a circular gauge with a needle is shown, with labels for 'INCREASING', 'STABLE', and 'DECREASING'. To the right, text asks: 'What is the actual state of the COVID-19 situation at your destination? Is it prone to decrease, remain stable or increase?' Below this, a bold headline reads: 'GAUGE THE RISKS OF YOUR DESTINATION WITH OUR UNIQUE INDICATORS!'. A red circular seal with 'EXCLUSIVE' and 'TOUR+MED' is also present. At the bottom, the full Tour+Med logo and the word 'Logo' are displayed.

taxi runs to and from a testing centre, and the automatic extension of the coverage. Tour+Med believes in a reassuring and comprehensive protection for its customers but encourages travellers to keep up with the evolution of the situation at their destination and to follow sanitary recommendations, even on a trip.
