Essentially, there will be three game modes: King first, the classic game where the King is the highest-ranking card; Queen first, a new option where the Queen replaces the King as the highest-ranking card; and finally the Equality option, in which for the first time ever, the King, Queen and Jack are replaced with the numbers 11, 12 and 13 – and the new 12 and 13 cards will feature images of both the King and Queen. New decks will also be introduced incorporating the theme of gender equality.

“

We decided we wanted to allow our games to represent a more equal world, so we started working on more options for players who believe in gender equality, like myself.”

Renee Weisberg, Marketing Manager of Mongoose Net Ltd.

“When I joined the team and spent time playing our games, I began wondering, why is the King worth more? Why after all of this time has nothing changed?” remarked Renee Weisberg, Marketing Manager of Mongoose Net Ltd., who joined the company in August 2020. “It’s a small

detail that is taken for granted, but the more we thought about it, the more we realized how important it is. We decided we wanted to allow our games to represent a more equal world, so we started working on more options for players who believe in gender equality, like myself. That’s how we came up with the idea of a deck where the Queen is the highest and most important card, as well as one that totally excludes the 'K,' 'Q', and 'J' signs.”

Solitaire Bliss offers Solitaire, Spider Solitaire, Freecell, and thirty-six other games. It also presents many special features, such as solvable-only game mode, statistics, multiple and unique card sets and backgrounds, and many customization options. It is available in ten languages.
