

# Photomask Market Size to Hit \$4.97 Bn by 2026 at 2.5% CAGR, Rising Adoption in Consumer Electronics Fuels Growth: AMR

PORTLAND, OREGON, UNITED STATES, October 22, 2020 /EINPresswire.com/ -- Allied Market Research recently published a report, titled, "Photomask Market by Product (Reticle, Master Mask, and Others), Mask Shop Type (Captive Mask and Merchant Mask) and Application (Optical Devices, Discrete Components, Displays, MEMS, and Others): Global Opportunity Analysis and Industry Forecast, 2019–2026". According to the report, the global photomask industry was pegged at \$4.00 billion in 2018 and is projected to reach \$4.97 billion by 2026, registering a CAGR of 2.5% from 2019 to 2026.

The report provides a detailed study of the global photomask market covering a number of important aspects such as current market scenario, estimates, top investment pockets, recent trends, changing dynamics, and vibrant forces of the industry from 2019 to 2026 to identify the underlying opportunities. The report gives much focus on the prospects that may transpire in the near future and provide a significant boost to the overall market growth.

## Chief reasons for market fluctuations

Rise in adoption of consumer electronic products, increase in usage of automated systems across various industry verticals, and surge in demand for semiconductors are the major factors driving the growth of the global photomask market. However, high product cost and complexity related to photomask manufacturing process impedes the growth to certain extent. On the contrary, increase in focus toward advancements in technologies such as IoT is expected to create lucrative opportunities in the near future.

Some ruling enterprises in the global photomask market are examined in the report along with the citation of innovative product launches by them, their collaborative undertakings & endeavors, several merges & acquisitions, and many more.

The frontrunners operating in the global photomask market include Applied Materials, Inc., SK-Electronics, Advanced Reproductions Corporation, Photronics, LG Innotek, Infinite Graphics Incorporated, Compugraphics Photomask Solutions, Nippon Filcon, HTA Photomask, and Hoya Corporation.

Key Benefits from Photomask Market Report:

- This study comprises analytical depiction of the global photomask market size along with the current trends and future estimations to depict the imminent investment pockets.
- The overall photomask market analysis is determined to understand the profitable trends to gain a stronger foothold.
- The report presents information related to key drivers, restraints, and opportunities with a detailed impact analysis.
- The current photomask market forecast is quantitatively analyzed from 2019 to 2026 to benchmark the financial competency.
- Porter's five forces analysis illustrates the potency of the buyers and suppliers in the photomask industry.
- The report includes the photomask market share of key vendors and photomask market trends.

Asia-Pacific held the largest share in 2018, followed by North America

The global Photomask market across Asia-Pacific dominated in 2018, contributing to nearly three-fifths of the market. Moreover, the region is expected to register the fastest CAGR of 2.8% during the study period. This is due to presence of major semiconductor and display manufacturers in this region. On the other hand, North America held the second largest market share in terms of revenue in 2018.

The master segment to rule the roost through 2026

Based on product, the master segment held the largest share in 2018, accounting for more than half of the global photomask market. This is due to its usage in multiple applications. The segment is expected to maintain its dominance throughout the forecast period. Furthermore, the segment is expected to portray the fastest CAGR of 3.2% during the forecast period.

The captive segment dominated the market

Based on mask shop type, the captive segment held the lion's share in 2018, contributing to nearly two-thirds of the global photomask market. The segment would dominate the market throughout the forecast period. Moreover, the segment is expected to manifest the fastest CAGR of 2.9% during the forecast period. This is due to increase in captive suppliers all over the globe.

#### Photomask Key Market Segments:

##### By Product

- Reticle
- Master Mask
- Others

##### By Mask Shop Type

- Captive Mask
- Merchant Mask

##### By Application

- Optical Devices
- Discrete Components
- Displays
- MEMS
- Others

##### By Region

- North America

- o U.S.
- o Mexico
- o Canada

- Europe

- o UK
- o Germany

- oBrance
- oRussia
- oRest of Europe

- Asia-Pacific

- oChina
- oJapan
- oTaiwan
- oSouth Korea
- oRest of Asia-Pacific

- AMEA

- oLatin America
- oMiddle East & Africa

About us:

Allied Market Research (AMR) is a full-service market research and business-consulting wing of Allied Analytics LLP based in Portland, Oregon. Allied Market Research provides global enterprises as well as medium and small businesses with unmatched quality of "Market Research Reports" and "Business Intelligence Solutions." AMR has a targeted view to provide business insights and consulting to assist its clients to make strategic business decisions and achieve sustainable growth in their respective market domain.

We are in professional corporate relations with various companies and this helps us in digging

out market data that helps us generate accurate research data tables and confirms utmost accuracy in our market forecasting. Each and every data presented in the reports published by us is extracted through primary interviews with top officials from leading companies of domain concerned. Our secondary data procurement methodology includes deep online and offline research and discussion with knowledgeable professionals and analysts in the industry.
