"We consider it an honor and privilege to serve our customers for the past two decades," said 3T Pro Vice President of Sales Tommy Gay. "We are excited about the future. The best is yet to come."

3T Pro provides 24/7 Computer Support and IT Services to a wide variety of small- and medium-sized businesses across Dallas, Ft. Worth, and beyond. The company offers hourly and managed IT Services, Cloud, Project Management, Business Continuity, and more.

As a thank you to current and future customers, 3T Pro is also now offering free on-site evaluations of IT systems of businesses in Dallas. According to a recent report by [Forbes Magazine](#), the largest cyber attack in history is predicted to occur in the next six months. But thanks to a free on-site evaluation of IT systems of businesses in Dallas that 3T Pro is offering, local businesses are now able to ensure that their business is protected and operating as efficiently as possible.

"We're excited to offer on-site evaluations for businesses in Dallas," Tommy said. "Our mission is to keep your technology humming so you can keep your business growing."

As for the on-site evaluation, Tommy revealed that 3T Pro is offering a free, no-obligation, on-site visit and evaluation of IT systems of businesses in Dallas.

“After talking with you about your business objectives and expectations, we will review your current systems and approaches,” Tommy revealed, before adding, “From this meeting, we will produce an initial evaluation and discuss with you your options and alternatives.”
