IT service management as a service (ITSMaaS) is a term for the idea that companies can outsource their IT services rather than maintaining them in-house. With ITSM, companies can decrease costs and free up staff, while getting quality IT service that trades on specialization and economies of scale.

ITSM allows the company to maintain IT services with lower fixed costs for hardware and labor. Instead, companies often pay per user, per year, for a given IT service. In addition to basic IT diagnostic and repair services, ITSM can also provide other types of services, such as help with virtualization systems, storage assistance and much more.
