

Registration Opens for Future Soldier Technology 2021

SMi Group Reports: The 7th annual Future Soldier Technology conference will take place as a virtual conference over the 9th and 10th March 2021.

LONDON, UNITED KINGDOM, October 28, 2020 /EINPresswire.com/ -- Building on the huge success of its six previous years, SMi Group are delighted to announce that [Future Soldier Technology](#) will return on 9th - 10th March 2021 as a virtual event to discuss Soldier Modernisation Programmes, and explore how these projects are driving infantry capabilities into the future and making the dismounted soldier more lethal, protected and ready to fight in the challenging conditions of the modern-day battlefield.

The banner features the SMi logo in the top right corner. The main text reads 'FUTURE SOLDIER TECHNOLOGY' in large, bold, white letters with a black outline. Below this, it says '9 - 10 March 2021 | Virtual Conference'. The central image shows a soldier in full combat gear, including a helmet with various attachments, holding a modern assault rifle. The background is a blurred outdoor setting with yellow leaves. At the bottom of the banner, the website 'www.futuresoldiertechology.com' is displayed in white text on a dark background. Below the banner, the text 'Future Soldier Technology 2021 - Virtual Conference' is written in a smaller font.

As the only conference dedicated to future soldier technology, this event will facilitate a unique gathering of senior officers and programme managers who are seeking to enhance their programmes, as well as senior experts from within the defence industry.

Registration is now open. Bookings are FREE for military and government personnel, and just £999 for commercial organisations: <http://www.futuresoldiertechology.com/EINpr1>

The 2021 agenda will contain updates and insight on soldier modernisation programmes, and will explore key capability areas, with briefings from speakers from 10 different nations: the US, the UK, Canada, France, Germany, Switzerland, Finland, Norway, Sweden and the Netherlands.

2021 Presentations Covering Programme Updates:

1) "Acquiring Dismounted Infantry Technology in Support of Dismounted Soldier Operations"
Mr Nick Taylor CEng FIMechE MAPM RPP, Head of Soldier, Training and Special Projects, DE&S, UK Ministry of Defence

2) "Optimising Soldier Modernisation Through the Work of the Infantry Trials and Development Unit and TommyWorks"

Lieutenant Colonel Andy Locke, Commanding Officer, Infantry Trials and Development Unit, British Army and Lieutenant Colonel Gareth Davies, SO1 Soldier Systems, British Army HQ

3) "Maximising Lethality and Dismounted Soldier Situational Awareness Through Enhanced Weapon Optics"
