

Mobile Deployable Communications 2021 to Be Held as a Virtual Conference

SMi Group Reports: The 2021 edition of Mobile Deployable Communications will take place online on SMi's virtual conference platform

LONDON, UNITED KINGDOM, October 28, 2020 /EINPresswire.com/ -- Due to the ongoing developments with COVID-19, SMi Group have made the decision to transform the 14th annual [Mobile Deployable Communications](#) conference into a fully online, virtual event.

This means the conference will go ahead as planned, with the support of its speakers, sponsors and delegates, but will run live and online only on the SMi Virtual Conference Platform.

It's the safest approach for the well-being of the event's audience, plus a virtual event will enable the industry to continue to come together to network, hear industry updates, stay informed on the market, and broaden learning opportunities.

Attendance for military and government personnel will be free, and it's just £499 for commercial organisations. Register at: <http://www.mobiledeployable.com/EINpr4>

SMi Group have confirmed that their Virtual Conference Platform will provide attendees with the following benefits:

- **Network virtually:** Create a profile and connect with other attendees, speakers, sponsors and media partners.

SMi GROUP'S 14TH ANNUAL
MOBILE DEPLOYABLE COMMUNICATIONS

27-28
Jan 2021
Lisbon
Portugal

www.mobiledeployable.com

Mobile Deployable Communications 2021

- Watch live briefings: Get online access to the latest strategies and case studies from your market.
- Re-watch presentations: Re-watch presentations or catch-up on those you missed, up to 6 months after the event has taken place.
- Learn in safety: Stay informed on the market and broaden learning opportunities from the comfort of your own home, without the added costs of travel or overnight stays.

Supported by the Portuguese Army, Mobile Deployable Communications 2021 explore some of the core issues and challenges of our modern battlespace, and will also include essential updates from CIS program managers and communications experts.

Conference highlights:

- Hear updates and guidance from CIS program managers and communications experts
- Learn about future requirements for equipment and procurement processes
- Discover the latest communication technology to optimise battlefield command and control
- Network virtually with senior military leaders and industry during dedicated networking sessions across two days

The conference agenda and speaker line-up can be viewed online at:
