## Summary:

A new market study, titled “COVID-19 Impact on SaaS-based Enterprise Resource Planning Market Upcoming Trends, Growth Drivers and Challenges” has been featured on WiseGuyReports.

## Overview:-

COVID-19, the disease it causes, surfaced in late 2019, and now had become a full-blown crisis worldwide. Over fifty key countries had declared a national emergency to combat coronavirus. With cases spreading, and the epicentre of the outbreak shifting to Europe, North America, India and Latin America, life in these regions has been upended the way it had been in Asia earlier in the developing crisis. As the coronavirus pandemic has worsened, the entertainment industry has been upended along with most every other facet of life. As experts work toward a better understanding, the world shudders in fear of the unknown, a worry that has rocked global financial markets, leading to daily volatility in the U.S. stock markets.

The growth of cloud computing technologies and the value it provides to small and mid-size businesses, by providing access to applications at an affordable price, is increasing the demand for SaaS based Enterprise Resource Planning globally. SaaS based ERP allows company to run their accounting, operations management and reporting on cloud. The main focus of SaaS based Enterprise Resource Planning is to provide services in a cheaper way which small businesses were not been able to use because of high infrastructure cost.
