

25th Annual ARC Forum to be Live-Streamed as Multiple Virtual Events

The 2021 ARC Forum, "Accelerating Digital Transformation in a Post-COVID World," will take place virtually online in an expanded format over two weeks in Feb.

DEDHAM, MA, UNITED STATES, October 29, 2020 /EINPresswire.com/ -- ARC Advisory Group is pleased to announce that the 2021 ARC Forum, "Accelerating Digital Transformation in a Post-COVID World," will take place online in an expanded format over two weeks. These virtual Forum events include:

- [Digital Transformation for Industry and Cybersecurity](#) - Feb. 8-11, 2021
- [Digital Transformation for Supply Chain & Logistics](#) - Feb. 16 & 17, 2021
- [Digital Transformation for Smart Cities](#) - Feb. 16 & 17, 2021

“

ARC's annual Forums provide executives with an opportunity to network, learn about the latest developments in digital transformation, and share their real-world experiences and lessons learned.”

Andy Chatha, ARC CEO and Founder

Traditionally held in Orlando, Florida for the last 24 years, the upcoming ARC Forum will use advanced virtual event tools to live-stream user presentations and panel discussions and encourage and support remote interaction and networking.

“ARC's annual Forums provide executives with unique opportunities to learn about the latest developments in digital transformation for industry, infrastructure, and supply chain and share their real-world experiences and lessons learned,” commented Andy Chatha, ARC's founder and president. “We're working hard to ensure that our upcoming virtual Forum continues this tradition. And since participants and sponsors alike value the networking

opportunities that the Forum affords, we're exploring virtual tools that will support these as well,” Chatha added.

ACCELERATING DIGITAL TRANSFORMATION

Consistent with the event theme, topics covered at the upcoming virtual ARC Forum events will include:

- IT, OT, and ET convergence
- AI and machine learning
- Asset performance management
- Remote and autonomous operations, open process automation, and other automation innovations
- Blockchain for industry, infrastructure, and supply chain
- Cybersecurity for industry, infrastructure, and supply chain
- Digital twins and connected smart machines
- Digital workforce and culture
- Industrial IoT platforms, edge infrastructure, and end devices

JOIN IN THE CONVERSATION

The upcoming virtual ARC Industry Forum offers a unique opportunity for professionals from industry, supply chain management & logistics, and infrastructure (including smart cities), to learn from their peers and share their own experiences and lessons learned in their respective digital transformation journeys.

End users will also have an opportunity to share ideas and experiences with their peers from a variety of industries and sectors at a virtual meeting of the Digital Transformation Council.

GLOBAL PARTICIPATION ENCOURAGED

An attractive new pricing model, combined with the associated travel and lodging savings, should make it even more practical and cost-effective for executives from around the world to “attend” the 2021 ARC Industry Forum. Participant registration will open in November and a limited number of speaker slots and sponsorship opportunities for all three programs are still available.
