

# World's Most Advanced Technology for Mole & Skin Tag Removal takes Centre Stage

*The brand-new product by Dermavel can help to increase self-esteem, confidence, and improve skin's appearance.*

NEW YORK, NEW YORK, UNITED STATES, October 31, 2020

/EINPresswire.com/ -- The recently trending company, [Dermavel](#), is pleased to announce the launch of its innovative and affordable mole & skin tag remover product, the Dermavel Plasma Pen, which utilizes the world's most advanced technology.

Dermavel is one of the world's fastest growing destinations for premium beauty and personal care products on the market. Delivering only the latest and innovative beauty and personal care products, Dermavel provides consumers with access to some of the most professional hair, cosmetic, electrical, skincare, and fragrance products available.

“

At Dermavel, we firmly believe in ensuring our products are reasonably priced, safe to use, and come with a no-risk, money-back guarantee”

*David Miller*

In the company's most recent news, Dermavel is excited to inform the public it has launched its most highly anticipated product to date – the Dermavel Plasma Pen. The Dermavel Plasma Pen is the world's most advanced technology for affordable, safe, and painless removal of skin imperfections. Through using the Dermavel Plasma Pen, consumers can experience the blemish-free, glowing skin they've always dreamed of.

“At Dermavel, we firmly believe in ensuring our products are reasonably priced, safe to use, and come with a no-risk, money-back guarantee,” says David

Miller, co-founder of Dermavel. "All of these benefits are necessary for our clients to improve their self-esteem, which can suffer when dealing with moles, warts, and skin tags. Oftentimes, these blemishes cannot be hidden by makeup, so we are providing an affordable and easy-to-use product that will help consumers to get the glowing skin they desperately want."

According to Dermavel, the best cosmetic treatments are those that clear conditions by boosting the skin's health, as opposed to invasive removal procedures. Dermatologists have been utilizing safe treatment of blemishes for many years, but at a hefty price tag. With Dermavel's Plasma Pen, consumers finally have access to a more affordable, non-invasive solution to reduce imperfections on their own.

The Dermavel Plasma Pen comes with a host of useful features and benefits, including:

- Small, portable, and easy-to-use design
- Advanced technology for ultimate accuracy to target skin defects at their root
- Blepharoplasty without surgery to tighten skin around lower and upper eyelids
- Treat a variety of skin lesions
- Reduce wrinkles and lines
- Reduce pigmentation on face and body
- Minimize scars and stretch marks
- Highly affordable pricing
- Safe to use at home
- No fillers or risk of imbalance from over injections
- Proven and natural-looking results
- Pain-free therapy
- All-round healthier, younger-looking skin
- Money-back guarantee
- And so much more!
