

SketchList Incorporated Offering New Woodworking Software

SketchList is preparing truly innovative woodworking design software. With this Kickstarter campaign the company will accelerate the product's development.

MILTON, MA, USA, November 3, 2020
/EINPresswire.com/ -- Local

Massachusetts furniture design software company, SketchList

Incorporated, a woodworking design software company, is currently working on a new product. With support from backers, the company will accelerate the product's development. The user-friendly design software brings a new approach to designing, making it easy to pitch ideas, provide building plans, and calculate dimensions, material usage, and costs.

As the company's newest tool, a necessity for the woodworker's toolbox, SketchList V5 has been designed specifically for the woodworker. Experienced

About SketchList Incorporated: SketchList is a leader in the woodworking, furniture, and cabinet design software market. Its woodworking design software on Mac and Windows computers has users across the world. Their next product leaps ahead of any on the market regarding ease of use and functionality. This software allows craftsmen and woodworkers to "take care of the details with ease" showing dimensions, contours, colors, and material grains.

Created by a woodworker for woodworkers, SketchList Incorporated combines the support and the "secret formula of a cabinet maker" to allow you to focus on your client's needs and give your full attention to the individual. With SketchList's inventive and innovative technology, you can bring your designs to life in 3D with the help of videos, free weekly training classes, and manuals. Save time, money, and avoid mistakes with the most helpful tool you will ever own! For more information about SketchList Incorporated, please visit <https://sketchlist.com/about/>.
