

Connecticut US Navy Veterans Lung Cancer Advocate Appeals to the Family of a Navy Veteran with Lung Cancer in Connecticut to Call the Lawyers at Karst von Oiste About Compensation-If He Had Asbestos Exposure in the Navy

NEW LONDON, CONNECTICUT , USA, December 18, 2020 /EINPresswire.com/ -- The Connecticut US Navy Veterans Lung Cancer Advocate is appealing to the wife or adult son-daughter of a Navy Veteran who has recently been diagnosed with lung cancer to please call lawyers at Karst von Oiste at 800-714-0303 about compensation-if their loved one had significant exposure to asbestos in the service. Financial compensation for a person like this might exceed \$100,000 and it does not matter if the person smoked cigarettes. A claim like does not involve suing the navy. The typical Navy Veteran the Advocate is trying to identify is over 60 years old and their asbestos exposure took place prior to 1982. www.karstvonoiste.com/

The Advocate says, "We want the family of a Navy Veteran who has just been diagnosed with lung cancer in Connecticut to please call the remarkable lawyers at the law firm of Karst von Oiste about your loved one---if he had heavy exposure to asbestos on a navy ship, submarine or at a navy shipyard. The compensation for a person like this can be significant as mentioned and the compensation process is straight forward. If your loved one is a

Connecticut

Navy Veteran and he had significant exposure to asbestos in the navy decades ago-please call the lawyers at Karst von Oiste anytime at 800-714-0303. We think you will be glad you did."

High risk work groups for mesothelioma in Connecticut include US Navy Veterans or shipyard workers in New London, or workers at a power plant, at an industrial facility, at a manufacturing facility, at a public utility, as a plumber, a boiler technician, as an auto repairman, as an electrician, or in the construction industry. In most cases, the exposure to asbestos caused mesothelioma at one of these types of workplaces and the exposure took place in the 1950's, 1960's, 1970's, or 1980's. www.karstvonoiste.com/

Lung Cancer Advocate*

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the risk of lung cancer is five times that of unexposed workers. <https://www.cdc.gov/cancer/lung/statistics/index.htm>.

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware. However, there are people with asbestos exposure lung cancer in Connecticut. www.karstvonoiste.com/

For more information about asbestos exposure please visit the NIH's website on this topic:
