Super Brush Foam Swabs

Wide-range of foam swabs

Super Brush offers extensive experience necessary to design a foam swab to meet specific kit, package, or application requirements. Their swabs are engineered with no adhesives, so they will not contaminate fluid being applied. In addition, each mitt is made with durable, lint-free foam.

Super Brush can customize their swabs with:

- Foam mitts that are hydrophobic, hydrophilic, soft, or coarse
- Overall-lengths ranging from 50 millimeters (mm) to over 2.5 meters
- Specified fluid delivery capacity
- Mitts as small as 1.7mm in diameter
- Colored handles for branding opportunities
