

# CBD Emporium Offers More Than Just Great Taste With its Newest Brand Nuriv

*Nuriv's line of tasty and efficacious CBD products are now available at all CBD Emporium locations.*

PHOENIX, ARIZONA, US, November 6, 2020 /EINPresswire.com/ -- [CBD Emporium](https://www.cbdemporium.com/), an upscale retail specialty CBD chain with locations throughout the United States, is pleased to announce that it has added [Nuriv](https://www.nuriv.com/) to its lineup of brands offered both in-store and online.

Nuriv is utilizing advanced technologies and expertise to provide customers with an exceptional great tasting CBD experience as part of a healthy lifestyle, so CBD Emporium customers can feel well and live well.

Now CBD users can learn more about Nuriv and its unique molecular compounds, organic farm practices, and incredible flavor profiles, by visiting a highly trained CBD consultant at any CBD Emporium.

CBD Emporium is always looking for new, novel, CBD Products to provide choice to a growing number of hemp and CBD consumers, said Andrew Young, Vice President of Vendor Relations at CBD Emporium. "In a market that continues to be dominated by soft gels, tinctures, and topicals, Nuriv has created a product line that differentiates itself from everything else out there." Young added.

"Nuriv® is changing the landscape with cutting-edge science and technology," said Bill Sebold, Managing Partner at Nuriv. "Because CBD is not a highly absorbable substance, Nuriv utilizes a patented formulation making it more bioavailable through CBD micellization. The particle size of the compound is too large to efficiently pass through the lining of the gut, but through

micellization, difficult-to-absorb compounds, such as cannabinoids, can be converted into liposomal micelles. These micelles are pre-digested and encapsulated to be in the range of ten to 20 nanometers in diameter to efficiently pass through the lining of the gut and improve viability, Sevold explains.

CBD Emporium is now featuring Nuriv's line of multi-serving smoothies/coffee creamers. Nuriv's CBD micellization technology has allowed the California-based company to formulate a CBD supplement with greater integrity, better taste, and more versatility than other CBD alternatives. Nuriv utilizes USA farm grown natural Hemp from organic non-GMO sources that contain high levels of Cannabidiol (CBD). Its exclusive lineup consists of broad-spectrum CBD with MCTs for use as a coffee creamer and other beverage enhancements. Each 2-teaspoon serving provides 20 mg of CBD (Broad-Spectrum Hemp Extract). Wake up with French vanilla, warm up with hazelnut, or indulge with chocolate brownie batter.

For consumers seeking something more specific, Nuriv has also created a remarkable line of targeted formulations in decadent flavors that focus on promoting sleep, alleviating stress, eye health, and joint health.
