

# Rising Canadian Artist Zachary Toigo Releases Latest Single, "My Satellite"

*My Satellite Available Now on All Major Platforms*

LOS ANGELES, CALIFORNIA, UNITED STATES, November 6, 2020 /EINPresswire.com/ -- "My Satellite" was just released by Canadian, multi-instrumentalist Zachary Toigo. This alternative song is the third release off of the upcoming album, following "Perfectly Clear" and "Milos".

"My Satellite" is a buoyant ballad heavily influenced by the sounds of Wilco, Bowie, and the Beatles. While it doesn't finish out the album, "My Satellite" does serve as a harmonious prequel to the album closer.

With synth, spacey, and folk sounds, Zachary creates the perfect song to contemplate life or stare up at the stars, with "My Satellite".

When asked about the writing of "My Satellite" Zach said, "like a lot of my songs, it just kind of came to me. Some nice chords with nice changes, it's the right kind of songwriter's song. I think it is the kinda song that you might sing or listen to floating through space."

"My Satellite" is available on [all major platforms](#). You can follow Zachary on [Instagram](#) to stay tuned to his upcoming activities.
