

Miami Real Estate Agency Seeks to Hire REALTORS for Cloud Based Brokerage Call Center

Miami's first cloud based Real Estate Brokerage, Miami Real Estate Agency, seeks to hire Miami REALTORS to staff cloud based call center.

MIAMI, FL, USA, November 8, 2020 /EINPresswire.com/ -- Miami Real Estate Agency announces push to hire a team of inside sales agents to staff the industry's first truly cloud based real estate platform and call center. New agents and experienced agents can both have the option to join the company as a regular agent or an inside sales agent, where the latter allows a [licensed real estate agent to make hourly pay](#) as well as a small real estate commission for clients routed through the cloud based CRM software. Once inside agents qualify a client they match them with another

licensed REALTOR active in that market or with the experience for that property type. This allows collaboration at scale between active agents in every niche market with licensed REALTORS reacting in real time to client needs with a truly distributed cloud based system.

Miami Real Estate Agency was founded by a diverse team with a passion for real estate including an experienced broker, real estate lawyer, software architect, real estate investors and certified marketing experts. All of the founding members are also licensed REALTORS, allowing each founder a real estate base as well as a plethora of specific industry knowledge. This allows the company to keep all software development in house and create a truly unique take on the call center model, with 100% of the technology in house, and putting the distributed power in the hands of licensed REALTORS, not overseas outsourced call centers.
