EINPresswire.com/ -- Karma the Game:  
Manifest Your Destiny

A social eco platform can't help you manifest your destiny, can it? Think again! Meet [Karma the Game of Destiny](#). Between the limitless world-building possibilities, the customizable controllable experience Karma offers something for all. Karma combines AR gaming with dating and is the most anticipated social app of the year on both IOS and Android. It brings a brand new experience that lets you meet real new friends, find soulmates, and

possibly fall in love with a special someone. Experience a new reality that's all your creation, all from your smartphone, but grounded in the real world and with real connections.

"We have given people control, autonomy, data/profile ownership, and a valuation system. Through this platform, they can form groups, chat, exchange, and store documents and media. It's like an enterprise platform for the price of a cup of coffee.

After that, it's a game where people can make money like Uber. Ambassadors will be the next TV stars on the internet."

René Reyes Chairman and Founder
