*New PRIVATE AVIATION DEAL BOOK catalogs mergers, acquisitions, fundraising, launches, bankruptcies and major fleet orders from private jet operators and brokers*

MIAMI, FLORIDA, UNITED STATES,  
November 12, 2020 /

EINPresswire.com/ -- With the COVID-19 crisis making private aviation a prime target for M&A activity, [Private Jet Card Comparisons](#) has released its first-ever [PRIVATE AVIATION DEAL BOOK](#).

Why the strong interest in private aviation operators and brokers?

McKinsey reports only 10% of U.S. households with the means to fly privately were doing so before the pandemic. Data from Argus and WingX show private flights have rebounded to more than 90% of pre-COVID levels. Another study by the European VLJ operator GlobeAir shows there are 30 times fewer contact points when flying privately than the airlines.

The comprehensive guide catalogs mergers, acquisitions, fundraising, launches, bankruptcies, and significant fleet orders from leading private jet operators and private jet charter brokers. In total, the DEAL BOOK lists over 50 transactions from June 2017 through the present.

Included for each event are the companies involved, date of transaction, and transaction details. This includes available dollar amounts for transactions. Seven of the nine largest private jet operators in the U.S. have been involved in at least one notable transaction during the past 18 months.

The advertisement features a green background with a white icon of a jet card. The text reads: "PRIVATE JET CARD COMPARISONS", "Know before you buy", "Compare over 250 programs by 65 variables in 1 place", "Because not all jet cards are the same", and "Save hours of research and money". Below the advertisement, a caption states: "Private Jet Card Comparisons helps subscribers find the best private aviation solutions for their needs".

"This guide will be useful to investors, consumers, and industry executives who want an overview of activity and initiatives," said Doug Gollan, Founder and Editor-in-Chief of Private Jet Card Comparisons. "Just in the past three years, there have been billions of dollars in activity, including hundreds of millions of dollars lost through bankruptcies. The PRIVATE AVIATION DEAL BOOK reveals a dynamic industry and highlights potential future activity. It's a must-read."
