

Interview released with CJOS COE ahead of the virtual Maritime Reconnaissance & Surveillance Technology conference

Smi reports: A senior representative from the Combined Joint Operations from the Sea Centre of Excellence (CJOS COE) is speaking at the event next February.

LONDON, LONDON, UNITED KINGDOM, November 12, 2020 /EINPresswire.com/ -- Ahead of SMI Group's [Maritime Reconnaissance and Surveillance Technology](#) conference, taking place virtually on the 3rd and 4th February 2021, a speaker interview has been released with Commodore Thomas Guy, Deputy Director, CJOS COE to discuss his role, current priorities, opportunities and the upcoming conference. He is set to give a presentation on Day Two on 'Promoting Allied Integration to Enhance Joint ISTAR Capabilities and Assessing the Future Operating Environment'.

Maritime Reconnaissance & Surveillance Technology
VIRTUAL Conference

Registration is FREE for military and government personnel, and just £499 for commercial organisations. Register at <http://www.maritime-recon.com/pr3>

Snapshot of Commodore Thomas Guy's Speaker Interview:

• How does your role correlate to maritime ISTAR and what are your responsibilities as Deputy Director of the Combined Joint Operations from the Sea Centre of Excellence?

"As the Deputy Director, I have the great honour of managing a small but highly capable multi-national team to deliver concept and doctrine development, analysis and education in support

of maritime warfare development."

•What are you currently working on in the field of maritime ISTAR and enhancing interoperability?

"CJOS endeavors to identify and the gaps, frictions, and overlaps, and to provide analysis for the alignment of ISR capabilities, data analytics capacity, and C2 within the alliance. And on a practical level, CJOS is the author and custodian of the NATO publication ATP 102 – Maritime ISR Doctrine."

•Following from this, do you have any major priorities going forward?

"CJOS COE's main goal is to provide support that will facilitate Alliance Maritime superiority. Our work in interoperability combines the gathering of information and "joining of the dots" by leveraging our unique geographical position in the U.S, which enables our extensive network, to facilitate the building of relationships within the Alliance on both sides of the Atlantic which aide in continual improvement in and amongst Allied Maritime forces."

The full speaker interview and many others, as well as the event brochure, is available to download online at <http://www.maritime-recon.com/pr3>

With 9 confirmed sponsors, delegates will be able to meet and network with key international technology providers at the forefront of the market, who will be able to provide solutions to potential challenges, whilst providing exclusive technical briefings.
