

Vari-Form - The Leader in Automotive Hydroforming Solutions

Vari-Form originated the concept and application of tubular hydroforming to body, chassis and other automotive structural parts.

STRATHROY, ON, CANADA, November 12, 2020 /EINPresswire.com/ -- A return to form - [Vari-Form](#). Although we were never gone Vari-Form is now up and roaring again and poised to become a world leader in [hydroforming](#) and automotive hydroformed parts.

Vari-Form is the industry leader in [hydroforming solutions](#), with more than 100 million parts produced to date.

Vari-Form prides itself on being first to market on many hydroform solutions. Close working relationships with our customers is key in development and launch of these applications.

Water is the driving force in nature"

Leonardo da Vinci

The pioneer of structural automotive hydroforming, Vari-Form manufactures millions of parts a year worldwide.

Vari-Form began volume production using its unique pressure-sequence hydroforming process in 1989.

Today, Vari-Form is the industry leader and continues to innovate for new materials, mass savings, structural optimization and value.

Vari-Form is strategically located in the heart of the automotive hub. Access to highly skilled employees, and partnerships with key suppliers makes us very competitive. Logistical routes next to our manufacturing facilities enables us to efficiently support our customers.

VARI-FORM
THE LEADER IN HYDROFORMING TECHNOLOGIES

vari-form strathroy

hydroforming auto parts

The originator of structural automotive hydroforming, Vari-Form's technology is used to manufacture millions of parts a year worldwide. Vari-Form began volume production using its production-validated pressure-sequence hydroforming (PSH) process in 1989. Today, Vari-Form is the industry leader, with over 100 million parts produced to date. Innovation continues to be a hallmark of Vari-Form leadership.
