

Massachusetts US Navy Veterans Lung Cancer Advocate Recommends the Lawyers at Karst von Oiste to Make Certain a Navy Veteran with Lung Cancer Gets Compensated-If They Had Asbestos Exposure in the Navy

BOSTON, MASSACHUSETTS, USA, January 7, 2021 /EINPresswire.com/ -- The Massachusetts US Navy Veterans Lung Cancer Advocate recommends, and they have endorsed the lawyers at Karst von Oiste to assist a Navy Veteran who has lung cancer with compensation if he had heavy exposure to asbestos in the navy. Believe it or not compensation for a person like this might exceed \$100,000 and the financial claim does not involve suing the navy. The typical person the Advocate is trying to identify is over 60 years old, he served in the navy prior to 1982 and his asbestos exposure occurred on a navy ship, submarine or he spent time at a shipyard. It does not matter if the person smoked cigarettes. For more information, a Navy Veteran like this or their family are urged to call the lawyers at Karst von Oiste anytime at 800-714-0303. www.karstvoniste.com/

The Advocate says, "Almost every time we get a phone call from a Navy Veteran who has lung cancer and who had heavy exposure to asbestos in the navy in the 1960s or 1970s they or their family members are stunned to learn about how big their compensation might be. These claims frequently exceed a hundred thousand dollars. If your husband or your dad is over 60 years old

and he served in the navy decades ago-and you are certain he had heavy exposure to asbestos-please call the lawyers at the law firm of Karst von Oiste anytime at 80-714-0303. We are pretty certain you will be glad you did."

High-risk work groups for exposure to asbestos in Massachusetts include US Navy Veterans, former workers at the Boston Navy Shipyard, workers at one of dozens of power plants in Massachusetts, shipyard workers, maritime workers, oil refinery workers, manufacturing workers, public utility workers, welders, millwrights, pipefitters, plumbers, electricians, auto mechanics, machinists, or construction workers. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's. www.karstvoniste.com/

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the

risk of lung cancer is five times that of unexposed workers.

<https://www.cdc.gov/cancer/lung/statistics/index.htm>.

The US Navy Veterans Lung Cancer Advocate says, "If your husband, dad, coworker or neighbor has just been diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never get compensated-even though the asbestos trust funds were set up for them too. We are trying to change this sad fact."
