

Vosita Announces Integration with Lytec™ Practice Management Software

Vosita now integrates with Lytec™ Patient Accounting and Scheduling Software to avoid redundant booking and fewer clicks

PARAMUS, NEW JERSEY, USA,
November 19, 2020 /

EINPresswire.com/ -- [Vosita](#) Healthcare Inc, is a privately owned company featuring an [online appointment booking](#) service that connects patients with providers. Patients can search for available providers by specialty, insurance, and location, and provide verified reviews. Due to COVID-19, Vosita has been offering the full service for free to both patients and providers, which includes but is not limited to: online booking for office and telemedicine visits, appointment confirmation, appointment reminders, online reviews, search engine optimization (SEO) for providers, online reputation boost, and referral lists.

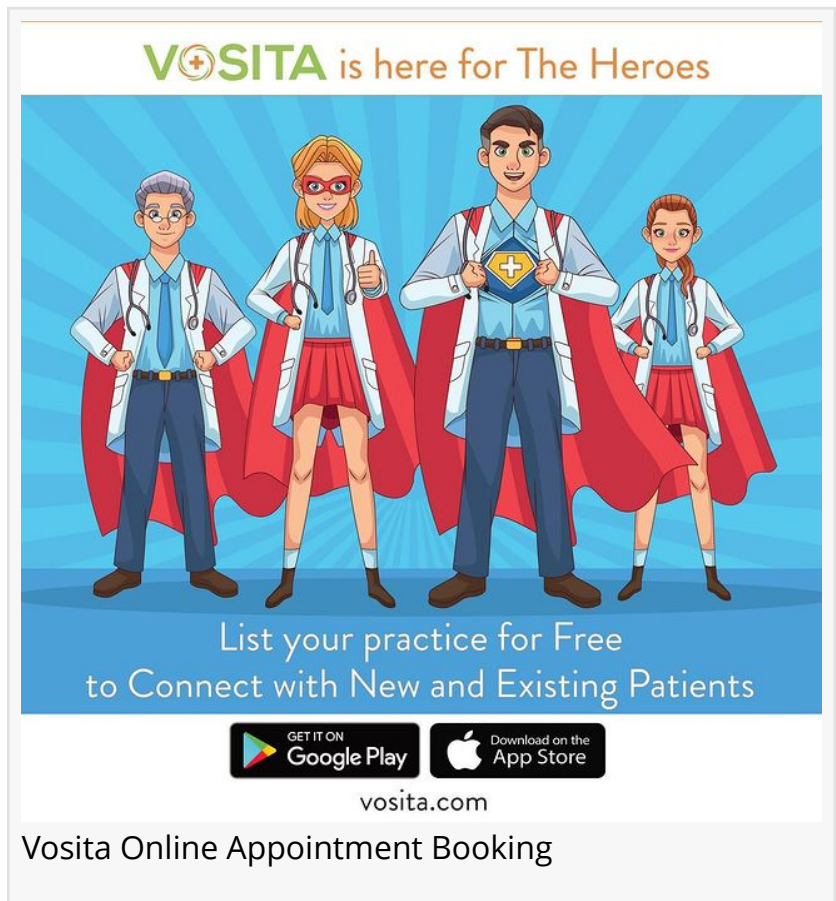

Lytec™ is a product of eMDS. Lytec is a very popular and respected patient accounting, office appointment, and electronic medical record system for the small to medium practices in the market.

The Challenge:

Online scheduling using Vosita needed to “talk” to the software that practices use daily, and create a two-way integration to avoid redundant steps and reduce the number of clicks and human error.

The Solution:

[Vosita now communicates with Lytec™](#), where providers can create availability directly from the software that they are familiar with and use every day. The availability created in Lytec™ will

The advertisement features a blue background with a sunburst pattern. At the top, the text reads "VOSITA is here for The Heroes" in green and orange. Below this, four cartoon doctors in white coats and red capes are shown. The doctor in the center is holding a shield with a yellow cross. Below the illustration, the text says "List your practice for Free to Connect with New and Existing Patients". At the bottom, there are two buttons: "GET IT ON Google Play" and "Download on the App Store". Below these buttons is the website "vosita.com" and the text "Vosita Online Appointment Booking".

show up in real time on Vosita.com and the Vosita mobile app. Due to the two-way interface, if the practice books an appointment in Lytec, that availability is removed from Vosita as well; if a patient books an online appointment, that appointment is created directly into the Lytec™ software, whether they are a new or existing patient. Such an interface will work with all versions of Lytec™ regardless of whether it is a full suite (medical billing, scheduling, and electronic medical records), Lytec Cloud, or Lytec server-based (on-premise) system.

“Due to the challenges that private physicians are facing within the healthcare industry, pre-Covid, during Covid, or post-Covid,” Robert Gabriel President and CEO states that “I want to help ease the pain on providers and connect them with new patients and existing patients without providers having to spend an arm and a leg.” Unlike other competitors’ online booking applications, Vosita will always have a free version for physicians to be listed and be found online.
