

Document Management System LogicalDOC Launches Android App LogicalDOC Mobile

Enterprise document management now on mobile devices with LogicalDOC Mobile

FAIR LAWN, NJ, UNITED STATES,
November 20, 2020 /

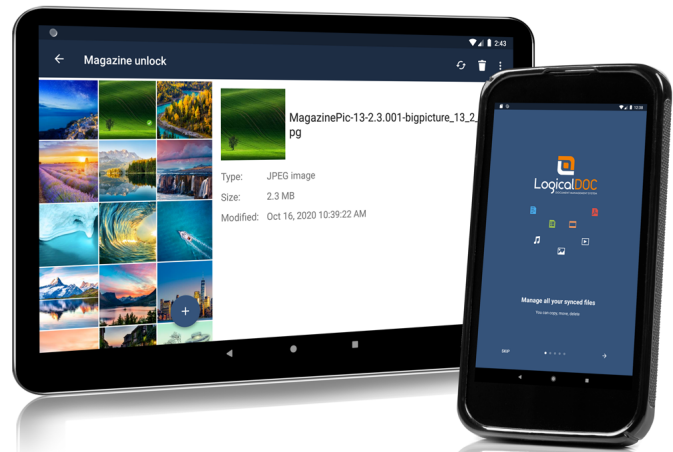

EINPresswire.com/ -- In a recent development, global software company [LogicalDOC](#) launched an android app [LogicalDOC Mobile](#) to facilitate users to interact with their core [Document Management System](#) from their mobile phones. Users with corporate LogicalDOC installation will now be able to access the Document Management System on their mobile devices with a user-friendly and responsive interface. The prerequisites of the LogicalDOC Mobile app are that the device should run on Android 10 or later and LogicalDOC 8.5.2 or later. The LogicalDOC Mobile App is available for download at the Google Play Store.

Apart from the various benefits and features of the mobile app, users will now be able to browse the repository of documents, run the upload of a document from the phone or an image from the gallery.

When accessing the LogicalDOC Mobile app for the first time, the app asks the user to create an account. the app presents the users with a screen to enter the connection parameters to the
